Overview

We Empower Businesses with Cutting-Edge ICT Solutions

At Caesarvisions Limited, we use technology to help businesses work efficiently, solve everyday challenges and achieve measurable business outcomes through our personalized services.

From technology procurement to workflow automation and cybersecurity advisory, our tailored ICT offerings are designed to drive productivity and sustainability for organizations across all sectors.

Who We Are

**CAESARVISIONS
LIMITED**

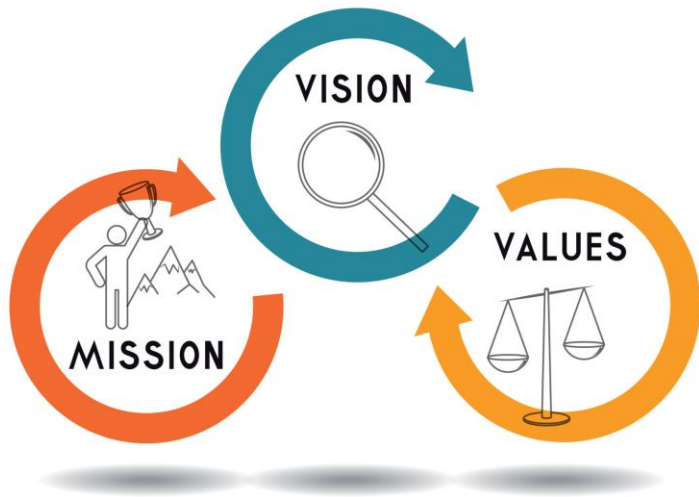

Caesarvisions Limited, a dynamic ICT consulting company founded in 2020, is committed to delivering exceptional ICT services, leveraging strategic global partnerships, extensive local technical expertise and personalized customer service approach.

We don't just implement technology, we provide tailored solutions, enable innovation and optimize operations across various sectors, ensuring that clients achieve measurable outcomes, operational excellence and digital transformation.

We specialize in end-to-end ICT solutions and services — from IT procurement and process automation to zero-trust cybersecurity, AI-driven support services, hybrid workplace infrastructure, and scalable cloud-managed solutions. Our systems integration approach ensures fast deployment, seamless interoperability, and sustained business resilience across industries.

**CAESARVISIONS
LIMITED**

Mission

- ▶ To provide high-quality consultancy services and conduct business ethically and with integrity.
- ▶ To build a trustworthy and profitable global ICT company that fulfils our customers' dreams.

Vision

- ▶ To provide solutions which enable our customers achieve excellence and sustainable competitive edge.

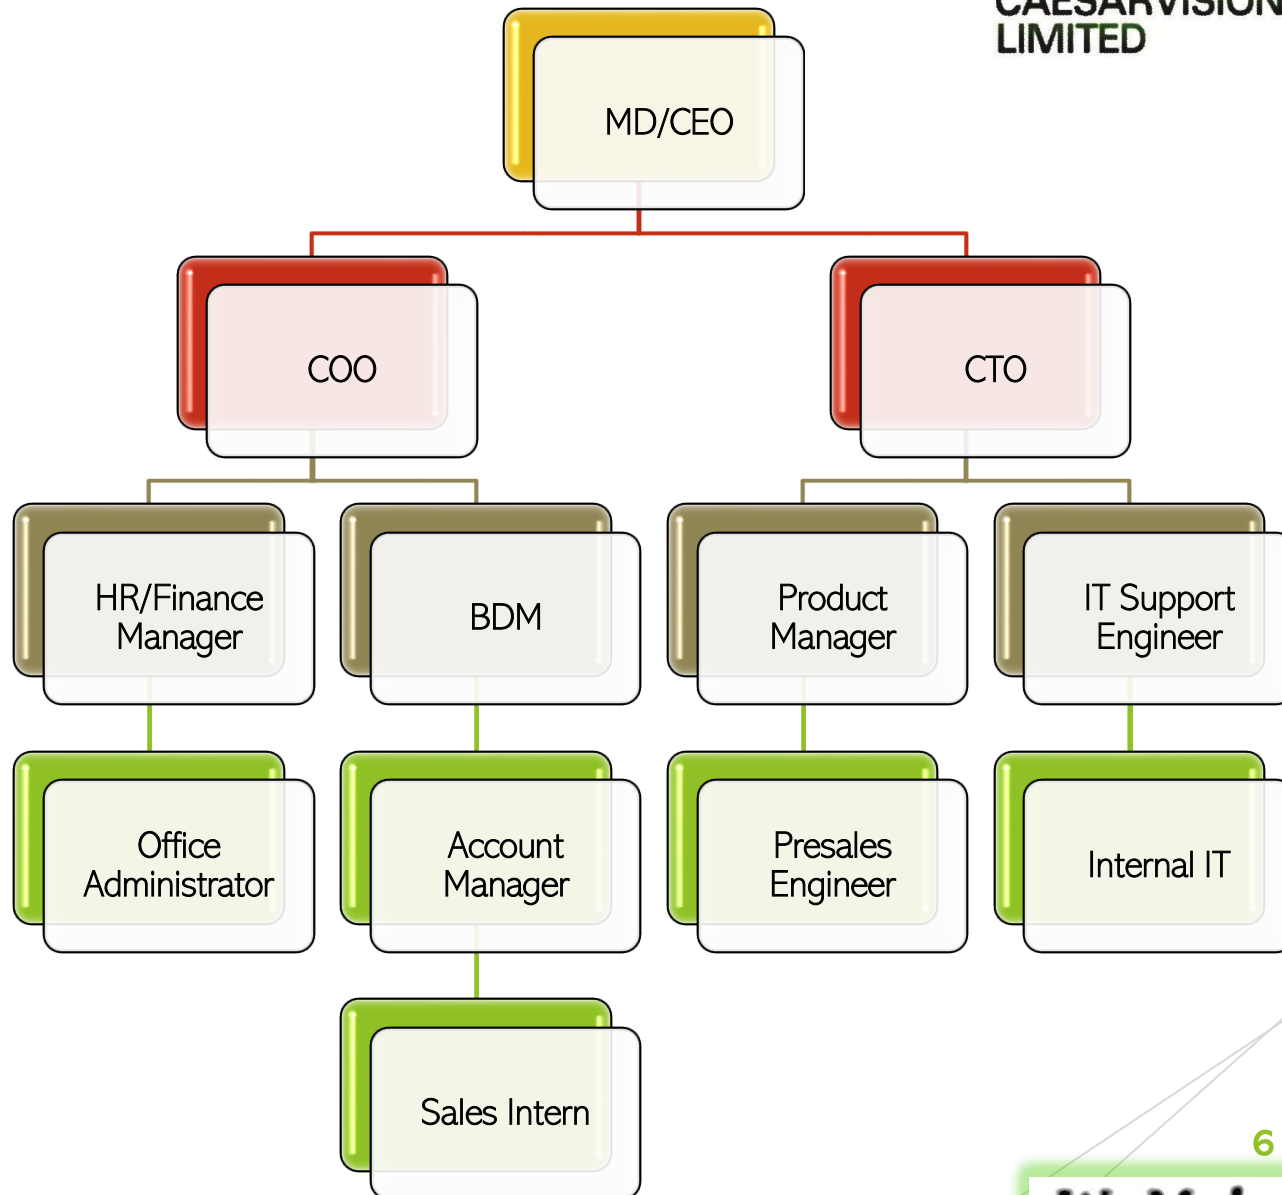

Core Values

- ▶ Customer-Centricity. Professionalism.
- ▶ Integrity. Trust. Consistency

Directors

Charles Adedayo Dada
MD/CEO

Charles is a certified ethical hacker and ITIL practitioner, with deep credentials in networking, cloud fundamentals, and organizational management. As a thought leader in IT service delivery, he continues to steer Caesarvisions toward sustainable growth and transformative impact.

With decades of hands-on IT and network engineering experience, Dada Charles leads Caesarvisions Limited as a results-oriented executive committed to advancing digital transformation across Africa and beyond. His journey from technical implementation to strategic oversight reflects a deep understanding of operational efficiency, customer-centric support, and emerging cybersecurity trends.

Charles brings a rare blend of tactical service delivery, field engineering expertise, and executive vision to Caesarvisions. He champions partnerships with top-tier OEMs, drives innovation in support frameworks, and cultivates a culture of accountability, safety, and continuous improvement. Whether leading remote teams or managing high-touch engagements, Charles ensures that every client interaction reflects Caesarvisions' mission: resilient infrastructure, responsive support, and secure digital ecosystems.

His leadership style emphasizes:

- ▶ Strategic integration of cybersecurity solutions tailored to African markets
- ▶ Operational excellence across remote and on-site technical support
- ▶ Partner development with global ICT brands to scale innovation and value

Directors

OLUWATOYIN ESTHER ABEL

Chief Operating Officer

Oluwatoyin is a results-driven, business management strategist with over 15 years of experience shaping customer success, business development, and executive stakeholder engagement across both public and private sectors. Her career spans renowned multinational and pan-African firms including Checkpoint Software Technologies, Dimension Data Plc., Morrisons Plc, and SATH, highlighting a steady progression into senior leadership roles and global coordination responsibilities. Holding a MA, with Honours in International Business Management from Middlesex University London, she combines academic and practical excellence to deliver measurable commercial impact.

Toyin currently serves as COO at Caesarvisions Limited, where she spearheads international expansion, OEM engagement, and digital transformation initiatives. Prior to this, she held regional and public sector-focused roles in Nigeria, overseeing operations across 19 northern states and aligning strategic business goals with federal opportunities. Certified in Business Architecture and Sales Leadership. Her skills includes negotiation, stakeholder influence, regulatory alignment, and customer-centric innovation. She excels at translating insights into growth and fostering long-term partnerships with clients, partners, and investors. A keen advocate for continuous learning, she has also completed professional courses from Harvard online and Cisco, equipping her with a well-rounded edge in tech-savvy, results-oriented leadership.

Toyin is known for her strategic thinking, and unwavering commitment to excellence. Beyond work, she enjoys traveling, learning new cultures, researching global trends, and building meaningful relationships. **Phone – 08095982067, +447908772893. E: Oluwatoyin@caesarvisions.com**

Directors

SAMUEL ABEL

Administrative & Human Resource Manager

Samuel is a dynamic and multilingual administrative leader with over a decade of experience across human resources, operations, and executive support in both local and international settings. He demonstrates a proactive approach to workforce management, strategic planning, and organizational efficiency, consistently driving excellence and productivity in every role.

Currently serving as Human Resource Manager at Caesar Visions Limited in Abuja, Abel is instrumental in talent development, performance optimization, and maintaining a collaborative work environment that aligns employee satisfaction with business goals. His previous experience spans administrative leadership roles across the UAE and Nigeria, including operational management, special duties, and financial handling within microfinance, consulting, and agricultural research institutions.

He holds a Bachelor's degree in History and Diplomatic Studies and a Diploma in Industrial and Labour Relations from Olabisi Onabanjo University, complemented by a Project Management Professional course from Dexnova Learning Center. Abel brings expertise in documentation, strategic coordination, and digital tools such as Microsoft Project and the Office suite.

Fluent in five languages—including English, Spanish, French, and German—he exemplifies adaptability and global-mindedness. Abel's interests in leadership, research, technology, and cultural exchange further enrich his professional style, making him an invaluable connector across teams and borders

Directors

CHRISTY OLUWABUNMI A.
Company Secretary

Christy. is a versatile operations professional with a track record of delivering excellence across the aviation, finance, and technology sectors. With over a decade of diverse experience, she brings a robust blend of administrative precision, customer service expertise, and technical acumen to every role she undertakes.

She holds an MSc in e-Governance Technologies and Services from Tallinn University of Technology and a Master's in Diplomacy and Strategic Studies from the University of Lagos. Her academic foundation in History and International Studies informs her global perspective and strategic decision-making.

Currently serving as Company Secretary and Flight Operations Specialist at Hurtigruten Estonia OU, Christ navigates complex travel logistics and operational procedures using tools like SABRE and Jira. Her sharp analytical skills and multilingual communication enable her to coordinate company regulatory compliance timely and efficiently.

Her previous roles span organizations such as IPF Digital AS, Sutherland Global, and Wema Bank PLC, where she refined her customer-focused approach—guiding clients through financial processes, troubleshooting technical issues, and ensuring secure, efficient service delivery. Earlier in her career, she gained administrative and leadership experience which shaped her coordination, staff training, and system management abilities. Known for her strong work ethic, quick learning ability, and calm under pressure, Christy excels in navigating dynamic environments. Her interests in technology, communication, and process optimization continue to shape her professional evolution.

Our Services

Technology Procurement

We simplify the process of acquiring the right technology for your business. Whether you're outfitting a new office, upgrading legacy systems, or scaling up operations, we help you choose and source hardware, software, and cloud solutions that match your goals and budget. Our vendor-neutral approach ensures you get the best value, and we handle everything from sourcing to delivery and setup—so you can focus on running your business.

Infrastructure & Enterprise Services

Your IT infrastructure is the foundation of your business. We design, implement, and manage enterprise-grade systems that support your day-to-day operations and long-term growth. From on-premise servers and data centres to hybrid and cloud environments, we ensure your infrastructure is secure, scalable, and aligned with your business strategy. Our services include network architecture, storage solutions, virtualization, and ongoing maintenance.

Workflow & Business Process Automation

Manual tasks slow you down. We help you identify bottlenecks and inefficiencies in your operations, then implement automation tools that streamline workflows across departments. Whether it's automating approvals, data entry, reporting, or customer onboarding, our solutions improve accuracy, save time, and free up your team to focus on higher-value work. We use platforms like Microsoft Power Automate, Zapier, and custom-built tools to tailor automation to your needs.

Managed & Outsourced IT Services

Need reliable IT support without building an in-house team? Our managed services give you access to expert technicians and engineers who monitor, maintain, and support your systems around the clock. From help desk support to full IT department outsourcing, we offer flexible packages that scale with your business. Our 24/7 support is available via phone, email, live chat, or secure portal—ensuring your team always has help when they need it.

Our Services

Cybersecurity & Cloud Service Advisory

Security and cloud strategy are critical to modern business. We help you assess risks, protect your data, and make informed decisions about cloud adoption. Our cybersecurity services include vulnerability assessments, endpoint protection, firewall configuration, and compliance support. On the cloud side, we guide you through migration, cost optimization, and selecting the right platforms—whether it's Microsoft Azure, AWS, or Google Cloud.

VPN & Network Solutions

Connectivity is key—especially for remote and hybrid teams. We design and deploy secure VPNs and robust network infrastructures that keep your business connected and protected. Our solutions include LAN/WAN setup, wireless networking, firewall integration, and remote access configurations. We ensure your network is fast, reliable, and secure, with ongoing monitoring and support to prevent downtime.

Modern Workplace Enablement

Empower your workforce with tools that support collaboration, flexibility, and productivity. We help you implement modern workplace solutions like Microsoft 365, Teams, SharePoint, and cloud-based file sharing. Whether you're transitioning to remote work or enhancing your office setup, we provide training, integration, and support to ensure your team gets the most out of their digital workspace.

Web Development & Hosting

Your online presence matters. We design and develop responsive, user-friendly websites that reflect your brand and engage your audience. From corporate sites to e-commerce platforms, we build with performance and scalability in mind. Our hosting services include secure, high-speed servers, regular backups, and ongoing maintenance—so your site stays online and optimized, 24/7.
